

Press Release

Monceau Assurances becomes a shareholder of Trecento Asset Management

Paris, April 7th 2015: Monceau Assurances announces a capital partnership with Trecento Asset Management

Trecento Asset Management was founded in 2012 by Alice LHABOUZ. Its objective is to bring back the real economy in the management in financial markets. The DNA of the company is then to invest in equity markets while being advised by committees of experts from the real economy, who provide insights and an on-the-ground feedback to the management team.

The company welcomes the arrival of a new shareholder, the mutual group Monceau Assurances. Since its creation in 2012, Trecento AM was supported by the group La Française through its seed funding subsidiary Next AM/New Alpha AM which today accepts to disinvest from Trecento so the company can enter a new phase in its development.

The capital of Trecento AM is now held by its founder Alice LHABOUZ, by leading entrepreneurs, the Monceau Assurances group and the Cyrus group.

Already a shareholder of Financière de la Cité and Métropole Gestion, the mutual group Monceau Assurances strengthens its holdings in entrepreneurial management companies by taking an equity stake in Trecento Asset Management.

Gilles DUPIN, President of Monceau Assurances “This new alliance highlights the willingness of the group to develop relationships of trust with selected management firms, and to entrust our members’ savings to financial art craftsmen”

Alice LHABOUZ, President of Trecento Asset Management “This is a great era that starts for Trecento Asset Management with this capital partnership. We are pleased to welcome such a renowned institution like Monceau Assurances in our capital”

Regarding Trecento Asset Management

Founded in 2012 by Alice LHABOUZ, Trecento AM is an asset management company which manages more than 170 million euros (mutual funds, alternative investment funds and management mandates). The firm has succeeded in increasing its assets under management by 400% in a year.

Regarding Monceau Assurances

As a mutual insurance group, Monceau Assurances provides 300,000 members with services including property insurance, liability insurance, pension insurance and life insurance. The Group manages approximately 6 billion euros.
