PRI 2021 Investor Reporting Tool - Terms and Conditions (PDF)

To continue to the reporting tool, please confirm the below and click "Save and Next"

I accept the terms and conditions

Release: 03-03-2021 v2084

# **2021 Investor Reporting Framework**

# Introduction

The PRI reporting platform is where signatories can view our Reporting Framework and report their responsible investment practices.

For a detailed walkthrough of the tool, see the PRI Reporting Platform Guide (PDF).

Before you begin, please note these important points:

- It is not possible to move away from the page once you open a "Core" indicator. Therefore we recommend that you prepare your response beforehand, using the "Modules" documents listed on the PRI website.
- In previous years, signatories could save their answers and use them to pre-fill the answers in the next reporting cycle. Since the reporting platform and framework have been re-designed, signatories' responses from previous years are not available to pre-fill for 2021.
- Multiple users from a signatory organisation can access the reporting platform at the same time. However, the user who has 'control' over the platform at any given moment will be the user who has most recently clicked in the reporting platform. We therefore recommend choosing one person to report, or asking multiple users to log in at different times.
- 2021 is a pilot year for our new reporting system. We'll review all feedback regarding the content, the platform and the assessment methodology. Providing feedback is entirely voluntary and will not affect a signatory's reporting or assessment.
  - We recommend using Google Chrome for an optimal user experience.

# **Senior Leadership Statement**

# Before you Begin

#### WHO DOES THIS MODULE APPLY TO?

This module applies to all PRI signatories.

The **Senior Leadership Statement** will frame signatories' reporting by providing an overview of their approach and achievements on responsible investment. It should be signed by the Chief Executive Officer, the Chief Investment Officer or a similarly senior member of the organisation's leadership.

This statement will appear at the beginning of signatories' reporting and assessment outputs, providing an introduction to them.

It serves three main purposes:

- (1) Raising internal awareness of, and internal accountability for, PRI reporting and responsible investment in general
- (2) Encouraging internal use of PRI reporting for decision making and for tracking progress on responsible investment
- (3) Facilitating the use of PRI reporting by external stakeholders to learn about signatories' general responsible investment beliefs

The PRI will not score this statement; however, it is mandatory to complete it.

Indicator ID	Dependent on:	N/A	Sub-section Senior Leadership Statement

View guidance document (PDF) for explanatory notes, logic, and assessment details if applicable.

#### **Section 1: Our Commitment**

- (1) Why does your organisation engage in responsible investment?
- (2) What is your organisation's overall approach to responsible investment?
- (3) What are the main differences between your organisation's approach to responsible investment in its ESG practice practices, across asset classes?

Economic, societal and climatic changes are today forcing all stakeholders (investors, issuers, regulators, public authorities, NGOs etc.) to take responsibility and collectively become aware of sustainable investment policy. Since the creation of Trecento Asset Management in 2011, the analysis of issuer governance aspects has been an integral part of the fundamental analysis methodological In order to deepen its approach as a long-term responsible investor, Trecento AM decided in 2015 to formalize its approach in this direction by becoming a signatory to the Principles for Responsible Investment (PRI), which implies in fact a commitment to providing information and to taking ESG factors into account in the investment selection decision-making process. The PRI complement the United Nations Global Pact, which invites businesses to integrate a range of universal principles relating to humar rights, labor law, the environment and the fight against corruption into their activities and strategies. In 2019, Trecento AM decided strengthen its approach to ESG integration and analysis in order to offer socially responsible and SRI-labelled savings products to clients. Taking ESG criteria into account in the selection of investments helps to identify and minimize the risks linked to each issue that may translate into operational, reputational (or other) risk potentially materializing into financial risk. Trecento AM's SRI approx aims to combine the financial and extra-financial performance of issuers not only with the goal of creating value, in the best interes of our customers, but also of contributing to sustainable development by encouraging best ESG practices. This approach includes commitment policy aimed at influencing issuers to take ESG criteria into account as part of their development strategy through dialogue with companies, a voting policy at general shareholders' meetings and support for initiatives working to improve the integration of ESG criteria by issuers.

Characters remaining: 981

#### Section 2: Annual Overview

Discuss your organisation's progress during the reporting year on the responsible investment issue you consider most relevant or material to your organisation or its assets.

Reflect on your performance with respect to your organisation's responsible investment objectives and targets during the reporting year. This might involve e.g. outlining your single most important achievement, or describing your general progress, on topics such as the following:

- (1) refinement of ESG analysis and incorporation
- (2) stewardship activities with investees and/ or with policy makers
- (3) collaborative engagements
- (4) attainment of responsible investment certifications and/or awards

In March 2020, our funds Trecento Santé ISR and Trecento Robotique ISR obtained the SRI Label from the French regulator AMF (Autorité des Marchés Financiers). Consequently, as part of its new SRI strategy, Trecento AM started participating in shareholder's annual meetings. We participated in 41 general meetings and 1 extraordinary general meeting: 21 general meetings for Trecento Santé ISR (representing 48.2% of assets under management as of 12/31/2019); 20 general meetings and 1 extraordinary general meeting for Trecento Robotique SRI (51.3% of assets under management as of December 31,

2019). For these 42 AGMs/EGMs, Trecento AM expressed its opinions on 576 resolutions: 299 resolutions on Trecento Santé ISR, of which a majority (~81%) concern the topic "Appointment of directors and corporate officers". We voted in favor ("For") in 86.3% of cases (258) and against ("Against") in 7.4% of cases (22). We abstained in 6.4% of cases (19); 277 resolutions on Trecento Robotique ISR, of which a majority (~68%) concern the topic "Appointment of directors and corporate officers". We voted in favor ("For") in 82.7% of cases (229) and against ("Against") in 10.8% of cases (30). We abstained in 6.5% of cases (18). Also, as part of its new SRI strategy, Trecento AM started identifying controversies, from "degree 1" (minor controversy) to "Degree 3" (major controversy). In 2020, Trecento AM identified 55 controversies on the Trecento Santé ISR and Trecento Robotique ISR. Notably, we identified 3 major controversies on Trecento Santé ISR (all 3 for Johnson & Johnson) and 1 for Trecento Robotique ISR (STMicroelectronics). We therefore applied a weighting limited to 2% of the fund's net asset for these 2 companies. We also made several changes that will be applied in 2021, in order to refine ou ESG strategy: 1/ The voting policy: In connection with the Wirecard scandal in 2020, we have added the following principle in the section "Appointment and remuneration of statutory auditors and auditors": Trecento AM opposes (or at least abstains from) the renewal of the statutory auditor(s) when the business relationship exceeds 25 years. Although the notions of experience and expertise are partly linked to the duration of the business relationship between the auditor(s) and the issuer, we believe that the independence of the relationship is diminished beyond this period. 2/ Controversies and weighting malus: we have doubled the weighting malus. For degree 1 controversies, we now apply 50 bps versus 25 bps previously, 100 bps versus 50 bps for degree 2 and 200 bps versus 100 bps for degree 3. This weighting malus is applicable to the maximum percentage (of the fund's net assets) of an issuer's holding in Trecento Santé ISR and Trecento Robotique ISR, i.e. 4%, in accordance with the funds' DICI/Prospectus.

Characters remaining: 756

#### **Section 3: Next Steps**

What specific steps has your organisation outlined to advance your commitment to responsible investment in the next two years?

Given the size of the company and the number of employees in Trecento AM, we only initiated one procedure related to a collective initiative to become a signatory of the United Nations Global Compact (UNGC). The UNGC encourages companies and signatories to align their strategies and operations with universal principles of human rights, labor, environment and anti-corruption, and to take actions that advance society. Nevertheless, Trecento AM's staff size was too small and below the minimum requirement. Therefore, in the next 2 years, joining a collective initiative is part of our improvement and progress.

Characters remaining: 185

#### Section 4: Endorsement

"The Senior Leadership Statement has been prepared and/or reviewed by [name], [position] and reflects [organisation's name]'s organisation-wide commitment and approach to responsible investment." Alice LhabouzPresidentTrecento Asset Management

Name	Alice Lhabouz
Position	President
Organisation's name	Trecento Asset Management

Note to signatories: PRI suggests some wording in option (A) below to explain that the above endorsement is only in respect of the Senior Leadership Statement. This should give the member of the signatory's senior leadership who is providing the endorsement reassurance that they are not being asked to endorse the entire Reporting Framework.

Signatories may accept the below text by selecting option (A). Alternatively, signatories may select option (B) to adapt the below text or to provide an entirely new text to suit their preferences and/ or to align with any applicable legal requirements or norms in their respective jurisdictions.

This endorsement is for the Senior Leadership Statement only and is not an endorsement of the information reported by Trecento Asset Management in the various modules of the Reporting Framework.

- The Senior Leadership Statement is simply provided as a general overview of Trecento Asset

  Management's responsible investment approach. The Senior Leadership Statement does not constitute advice and should not be relied upon as such, and is not a substitute for the skill, judgement and experience of any third parties, their management, employees, advisors and/or clients when making investment and other business decisions.
- [Free text: Up to 2,000 characters (~300 words)]

### **Organisational Overview**

# **Before you Begin**

#### WHO DOES THIS MODULE APPLY TO?

The **Organisational overview (OO)** module is applicable for all PRI signatories.

This module aims to identify a signatory's organisation type and characteristics, including its assets under management, enabling the PRI to establish the relevant peer group.

Responses to this module will also determine which indicators will be shown to signatories in other modules of the Reporting Framework. Importantly, they will ensure that signatories do not have to provide responses to indicators that are not relevant to their organisation.

For each internally	managed asset	class, select whether or not yo	u incorporate ESG into your investment decisions.

#### **Indicator Feedback**

Please provide any feedback on this indicator: OO 10: Internally managed assets

Options selected on this page are correct. However, on the next page, there is a problem with the platform as we are obliged to confirm that ESG is not incorporated into internally managed listed equity, which is false. I confirm that our decisions regarding all our listed equity incorporate ESG.

#### Confirmation and summary of ESG activities

This page is a summary of some of the information you have reported so far. The summary includes:

- Asset classes where stewardship (engagement and voting) activities were conducted (in table 1)
- Asset classes where ESG was incorporated (in table 2)

If the summary does not reflect your organisation, please use the "back" button to return to the relevant indicators and adjust your response. If this summary is correct, please continue by clicking "Save and next".

#### Action:

If Table 1 is *incorrectly describing your engagement and voting activities*, please review your answers in OO 9 LE, OO 9 FI, OO 9 ALT, OO 9 HF.

If Table 1 is incorrectly describing which asset classes you hold, please review indicator OO 05.

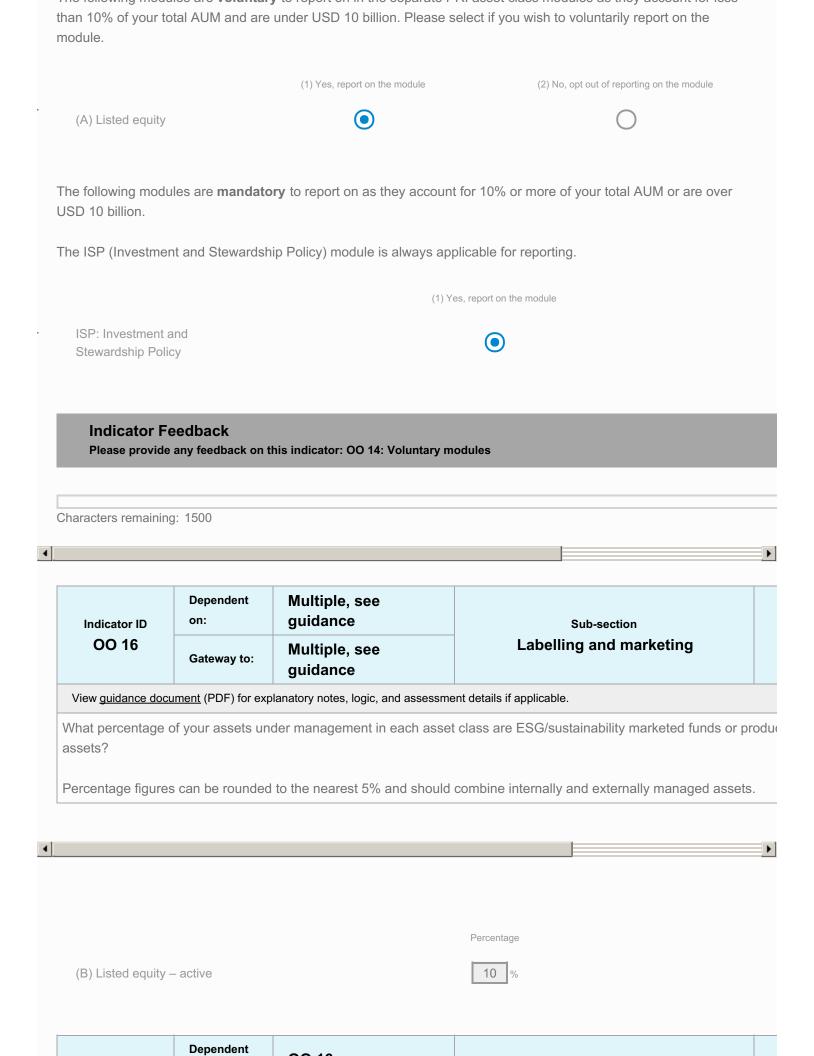

If Table 1 is **correct**, ensure "I confirm this is correct" is selected, and continue.

#### Table 1a: Asset classes where stewardship (engagement or voting) activities were conducted:

Note: "by any channel" means that at least one of the options A, B, C, or D were selected in OO 9 for that asset class.

(1) Listed equity engagement - by any channel, on either internal or external LE	I confirm this is correct	•
(2) Listed equity voting- by any channel, on either internal or external LE	I confirm this is correct	•
(3) Listed equity voting - by (A) service providers or (C) internally, on either internal or external LE	I confirm this is correct	•

Table 1b: Asset classes which you hold but where no stewardship (engagement or voting) activities were conducted: (7) No engagement on internally managed private equity I confirm this is correct Action: If Table 2 is incorrectly describing your ESG incorporation activities, please review your answers in OO 10 (for internally managed) or OO 11, 12, 13 (for externally managed). If Table 2 is incorrectly describing which asset classes you hold, please review indicator OO 05. If Table 2 is **correct**, ensure "I confirm this is correct" is selected, and continue. Table 2a: Asset classes which you hold and for which ESG incorporation is reported: Internally managed (OO 10): I confirm this is correct (1) ESG is incorporated into internally managed listed equity I confirm this is correct (3) ESG is incorporated into internally managed active listed equity Table 2b: Asset classes which you hold but for which no ESG incorporation is reported: Internally managed (OO 10): (4) ESG is not incorporated into internally managed fixed income I confirm this is correct I confirm this is correct (6) ESG is not incorporated into internally managed listed equity (7) ESG is not incorporated into internally managed private equity I confirm this is correct Multiple, see Dependent on: guidance **Indicator ID Sub-section** 00 14 Voluntary modules Multiple, see Gateway to: guidance View guidance document (PDF) for explanatory notes, logic, and assessment details if applicable.

## **Investment and Stewardship Policy**

# Before you Begin

#### WHO DOES THIS MODULE APPLY TO?

The **Investment and stewardship policy (ISP)** module aims to capture the overall approach of the reporting organisation to responsible investment.

All PRI signatories will be required to report on this module, regardless of their asset class mix, which responsible investment strategies they use or where they are headquartered.

The ISP module includes indicators focused on key themes that are applicable to most asset classes. By asking signatories about them in this module, we have substantially reduced repetition across the asset class modules while strengthening our accountability efforts and improving the overall reporting experience for signatories. Signatories can still indicate where activities differ by asset class, where applicable.

Indicator ID	Dependent on:	N/A	Sub-section Responsible investment policy
ISP I	Gateway to:	ISP 1.1, ISP 1.2	Responsible investment policy

View guidance document (PDF) for explanatory notes, logic, and assessment details if applicable.

Does your organisation have a formal policy or policies covering your approach to responsible investment?

Your approach to responsible investment may be set out in a standalone guideline, covered in multiple standalone guidelinestment policy. Your policy may cover various responsible investment elements such as stewardship, ESG guidelines climate-related guidelines, RI governance and similar.

- (A) Yes, we do have a policy covering our approach to responsible investment
- (B) No, we do not have a policy covering our approach to responsible investment

4

Your response to this indicator will partly determine if you meet the PRI's minimum requirements for membership. Signatories identified as not meeting the minimum requirements will be contacted confidentially and engaged with over a two-year period. Signatories who fail to meet the minimum requirements during the two-year period will be delisted and their names publicly disclosed. Please read about the minimum requirements here.

I confirm that I have understood the information and have checked that my response to the above indicator is correct.

Indicator ID	Dependent on:	ISP 1	Sub-section
ISP 1.1	Gateway to:	Multiple, see guidance	Responsible investment policy

View guidance document (PDF) for explanatory notes, logic, and assessment details if applicable.

What elements does your responsible investment policy cover?

The responsible investment elements may be set out in one or multiple standalone guidelines, or they may be part of a b

- (A) Overall approach to responsible investment
- (B) Guidelines on environmental factors
- (C) Guidelines on social factors
- (D) Guidelines on governance factors
- (E) Approach to stewardship

4		<b>)</b>
		(O) Other responsible investment aspects not listed here, please specify:
		(N) Managing conflicts of interest related to responsible investment
		(M) External reporting related to responsible investment
		(L) Internal reporting and verification related to responsible investment
		(K) Responsible investment governance structure
		(J) Definition of responsible investment and how it relates to our investment objectives
		(I) Definition of responsible investment and how it relates to our fiduciary duty
		(H) Asset class-specific guidelines that describe how ESG incorporation is implemented
		(G) Approach to exclusions
L	╝	(F) Approach to sustainability outcomes

Your response to this indicator will partly determine if you meet the PRI's minimum requirements for membership. Signatories identified as not meeting the minimum requirements will be contacted confidentially and engaged with over a two-year period. Signatories who fail to meet the minimum requirements during the two-year period will be delisted and their names publicly disclosed. Please read about the minimum requirements here.

I confirm that I have understood the information and have checked that my response to the above indicator is correct.

View guidance document (PDF) for explanatory notes, logic, and assessment details if applicable.

What mechanisms do you have in place to ensure that your policies are implemented in an aligned and consistent way a

All employees, including financial analyst assistants (trainees), are made aware of the challenges of responsible investment. Financial analysts, as well as trainee financial analysts when they are involved in the fundamental analysis of an issuer, are responsible for carrying out the ESG analysis (in order to assign a proprietary ESG rating), rigorously specifying the sources and relative documentation. Trecento AM has set up an ESG committee composed of the fund managers and financial analysts of Trecento AM. The ESG Committee is responsible for ensuring that the ESG integration and analysis model works, is audited and monitored (by the Compliance Officer), is updated and applied according to the rules and processes described in the Prospectus and in the SRI Label. The committee must also rule on investment decisions concerning controversial issuers, on the ESG rating o issuers, on the ESG evaluation model and its areas of improvement/development. The committee makes strategic decisions in line with Trecento AM's SRI strategy. Also, Trecento AM's management team formalises a daily ESG reporting ("Risk Report ESG"), which is a procedure for monitoring the ESG risks and ratings of the Trecento Santé ISR and Trecento Robotique ISR funds, in relation to their investment universe. Trecento AM's Compliance Officer is responsible for ensuring compliance with these procedures If Trecento AM does not comply with these criteria, the SRI label may be withdrawn by the French regulator. Therefore all the teams are very vigilant about the respect of these practices

#### Indicator Feedback

Please provide any feedback on this indicator: ISP 26: Public support

As a small asset management company (AUM < €300m), Trecento AM's financial, human and technical resources do not let us to accurately assess the CO2 emissions of the companies included in Trecento Robotique ISR and Trecento Santé ISR funds, as we as their respective investment universes. We do, however, monitor whether companies have a greenhouse gas reduction policy ar the initiatives they have put in place, in order to give them a score, as part of our SRI/ESG policy. As our AUM grow and the company expands, we want to move towards accurately calculating the greenhouse gas emissions of the companies in our porfolic We plan to do this with the help of an external service provider. For the time being, we have consequently not joined the Paris Agreement because we are not in a position to assess the impact of our portfolio's GHG emissions.

If and assess climate-related risks?

Risk management for identifying and assessing climate-related risks are mainly done through two processes: 1/ ESG Analysis: for each issuer studied, Trecento AM's analysts evaluate the overall ESG policy implemented or not by the issuer, resulting in a proprietary ESG rating. This analysis takes the form of a proprietary ESG analysis. The analysis of each ESG indicator is qualitatively commented, rigorously documented and sourced. While doing so, the analysts can detect climate-related risks and report it to the portfolio managers and the ESG committee (organized every 6 months). 2/ Controversies: we monitor the controversies for each company in the funds. The severity of the controversies is studied, as well as the responses and actions initiated by the issuer to address them. The occurrence of controversies weakens the issuer's ESG rating. Trecento AM has formalized a monitoring tool, in the form of a database, to identify, list, and continuously track controversies impacting the companies in Trecento Santé ISR and Trecento Robotique ISR portfolios. Analysts debate with portfolio managers on the severity of the

	ntroversy (degree 1 : controversy.	minor controversy	; degree 3 : major controversy). '	We then apply a weighting malus based of the severity of

Senior-level oversight of RI

Internal/external staff implementing RI

Signatories identified as not meeting the requirements are contacted confidentially and supported over a two-year engagement period. Signatories who fail to meet these requirements over the two-year period will be delisted and their names publicly disclosed. You can read more about the minimum requirements on our website.

Your responses to the above indicators will be used to determine if you meet the minimum requirements of being a PRI signatory. You have answered the following to these indicators:

Questions	Responses
ISP 1  Does your organisation have a formal policy or policies covering your approach to responsible investment?  Your approach to responsible investment may be set out in a standalone guideline, covered in multiple standalone guidelines or be part of a broader investment policy. Your policy may cover various responsible investment elements such as stewardship, ESG guidelines, sustainability outcomes, specific climate-related guidelines, RI governance and similar.	(A) Yes, we do have a policy covering our approach to responsible investme
ISP 1.1 What elements does your responsible investment policy cover?  The responsible investment elements may be set out in one or multiple standalone guidelines, or they may be part of a broader investment policy.	(A) Overall approach to responsible investment, (B) Guidelines on environmental fa Guidelines on social factors, (D) Guidelines on governance factors, (E) Approa stewardship, (G) Approach to exclusions, (I) Definition of responsible investment at relates to our fiduciary duty, (J) Definition of responsible investment and how it relationstrates to objectives, (L) Internal reporting and verification related to responsible in (M) External reporting related to responsible investment
ISP 3 What percentage of your total assets under management are covered by your policy elements on overall approach to responsible investment and/or guidelines on environmental, social and governance factors?	AUM coverage of all policy elements in total: 10%
ISP 6  Do your organisation's board, chief-level staff, investment committee and/or head of department have formal oversight and accountability for responsible investment?	(B) Chief-level staff (e.g. Chief Executive Officer (CEO), Chief Investment Officer (Chief Operating Officer (COO)), (C) Investment committee, (D) Other chief-level sta specify:
ISP 7 In your organisation, which internal or external roles have responsibility for implementing responsible investment?	(B) Chief-level staff (e.g. Chief Executive Officer (CEO), Chief Investment Officer (CHO), Chief Operating Officer (COO)), (C) Investment committee, (F) Portfolio manage Investment analysts

ISP 1.1: The answer column to ISP 1.1 will be blank if you reported that you do not have an RI policy in ISP 1.

ISP 3: The answer column to ISP 3 automatically display "%" if you have reported that you do not have an RI policy in ISP 1.

If the above responses are not correct, please change your response within each of the relevant indicators.

# **Listed Equity**

# Before you Begin

### WHO DOES THIS MODULE APPLY TO?

The listed equity module is designed for signatories who invest directly in listed equity and implement responsible investment for at least some of those assets.

It is not applicable to investors who exclusively use external managers for their responsible investment in listed equity. They will instead report this in the external investment manager selection, appointment and monitoring (SAM) module.

This module seeks information at the organisational level and for listed equity investments in aggregate; reporting should be done for all listed equity AUM and not focus on one fund or product.

It is mandatory to complete this module for signatories who have either 10% of their AUM, or US\$10bn or more, directly invested in listed equity in the relevant reporting year.

The listed equity strategies that can be reported on in this module include:

- (1) Passive equity
- (2) Active Quantitative
- (3) Active Fundamental
- (4) Investment Trusts (REITs and similar publicly quoted vehicles)

Indicators on engagement and (proxy) voting will only be displayed if signatories indicate in the Organisational Overview module that their external managers perform these functions on their behalf for the relevant asset class.

## Confirm and begin pre-submission checks

Once you have completed all questions (and they are marked with a blue tick), click "Start submission checks" on this page.

You will then begin a series of pre-submission checks, and have the opportunity to make further changes to your response.

### **Final submission**

You have completed all checks, please click "submit" to close your 2021 Investor Reporting Framework.

You will no longer able to amend your response but can view your submission using "Export survey"

A confirmation email will be sent to the user who is registered as the main contact at the organisation. This is set to: christ

I have reviewed my submission and followed all actions from messages

I confirm that my response is complete and correct

I understand that no changes can be made after the reporting cycle closes on 29 April 2021
